Dave: We did schedule knowing fullwell that it was the holiday in honor of Martin Luther King's birthday. However, if we could, on short notice, re-schedule, I would be happy to move to 1/22. The city of Sequim has a planning commission meeting that date, I believe. Thanks for bringing the issue up. I'll ask Trish to try to contact all members today. John

Mr. Chairman,

I have been concerned since the organizational meeting that we have scheduled a meeting on January 15th. We are an elected government body.

I know of no other elected body, government organization, bank, or elected official in an official capacity that would be part of a government meeting on that holiday. It is my belief that we would be better off to have a special meeting on the 22nd or have no meeting at all in January than to meet on Mr. King's birthday. The public is watching what we do and some people are gone for the holiday. If any of these people had wanted to participate in our meeting it is possible that we could be causing an offense.

If you decide to meet on that day, I cannot in good conscience be a participant on this important government holiday. Should you chose to continue with the meeting on the 15th, please E-mail me and I will forward to you a list of the sections in the charter that I would like to respectfully request to be opened and make a presentation for change to the committee.

Sincerely,

David Cummins
